

Whether you're a veteran home educator, looking for new tools and inspiration, or just starting to homeschool – it can be a daunting task to chart a course through all the amazing options available at this conference.

Each category below and its pathway, has been thought through with your family's homeschooling and home discipleship needs in mind. We hope your time and efforts are fruitful while here at the conference.

For example, the History pathway in the Academics group starts with Workshop A for Bill Potter's thoughts about Patrick Henry. Later, in Workshop C, Patrick Nurre tells you all about Egyptian Chronology. Saturday morning, if you've pre-registered for the event, the Fathers and Sons Breakfast starts the day. Later, in Workshop G, Bill Potter tells a story from World War II.

Enjoy your topic's pathway from the many listed below and change it to work for you. Use the conference schedule for times and places. Special Events require pre-registration.

ACADEMICS
